Bundesverband zur Förderung des Lehmbaus

I wish to suggest a project for the DVL earthen building case study project library.

BUILDING PROJECT

.....
Project name

.....
Location (Postcode, Place, Country)

.....
Construction period / Completion

.....
Usable floor area / Living area (m²)

.....
Building costs (€ net)

.....
Building cost/m² usable floor area (€ net/m²)

.....
Heat demand (kWh/m²a)

.....
Earthen material/technology employed

GENERAL PROJECT DESCRIPTION

General introduction to the project without details of construction etc.
(e.g. concept, design intention, function, structure, form, context etc.)

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

(max. 150 words copy text)

DESCRIPTION OF CONSTRUCTION AND EARTHEN BUILDING

Detailed description of the use of earth in the building, construction, use of building, climate, energy concept, special aspects etc.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

(max. 250 words copy text)

DRAWINGS & IMAGES

Drawings and images are required to communicate an impression of a building, its structure and construction. The choice of ideal plans and illustrations is dependent upon the specifics of each project, however the following can help by way of example:

Examples of drawings and plans are:

- Plan Elevations Sections Site plan Construction details

Examples for images:

- Representative general view(s) of the building/project
 Supplementary photos, for example of interiors, details of particular constructions ...
 Site photos showing the manufacture of earthen building elements for example.

Plans can be provided as good photocopies, original photos and slides accompanying this form or digitally on CD. Illustrations from printed sources or inkjet printouts are not suitable for reproduction due to the print pattern. Digital sources can be CAD files (DXF/DWG/EPS) or pixel-based files e.g. JPEG / TIFF. For publication, digital images require a higher resolution. Please note that photos from other sources may be subject to copyright. **Please do not send photos via email.**

PROJECT PARTICIPANTS

This form presents an overview of the information and documentation required by the DVL in order to produce a project description. It is a guide - you do not need to use this exact form, you may use a separate sheet of paper or a disk file as required. In the interests of a smooth realisation of the project sheet we ask that you provide all details given here. Thank you!
